

Education Policy 1.7: Not Yet Competent

When a candidate is assessed “Not Yet Competent” the Lead Assessor and Club CTO will follow the steps outlined below.

1. The Lead Assessor will notify the candidate that he/she is not yet competent for the award/qualification and that more training is required prior to re-assessment
2. The Lead Assessor will discuss with the candidate and their Club CTO, the aspects of assessment that did not meet the evidence requirements and determine whether the candidate will present for re-assessment at a later date or withdraw from the course.
 - If the candidate chooses to be reassessed, the Club CTO must arrange the required instruction prior to re-assessment
 - If the candidate chooses to withdraw from the course, “not competent” is recorded and the assessment request processed as per Education Policy 1.3: Assessment of Courses
3. The Lead Assessor must notify the Director of Education (DoE) of the candidate who is “Not Yet Competent” and chooses to be re-assessed
4. The Club CTO will notify the DoE when the candidate has reached the appropriate level of instruction and will suggest a re-assessment date
5. The Club CTO will create a new Assessment Request and Form 14 for the candidate
6. The DoE will appoint a Lead Assessor to carry out the re-assessment
7. The Education Policy 1.3: Assessment of Courses is to be followed for the re-assessment
